- As of February 23, at 1200ET, the overall threat to CBSA officers and infrastructure remains low, but caution should be exercised in light of recent law enforcement actions and reporting surrounding IMVE messaging and activity.
- ITAC continues to assess that the terrorism threat to uniformed personnel is medium.
- IMVE adherents may feel empowered by the level of disorder resulting from the protests in Ottawa. This could lead to individuals vulnerable to extremist messaging to commit isolated acts of violence.
